Internationally Award-Winning Architecture for Sale

From Concept to Classic – Spectacular Living in a Timeless Concept Villa, Winner of International Architecture Awards

With a cool factor reminiscent of the iconic DMC DeLorean, this home has been a classic from the very first foundation. Stainless steel and glass—a simple recipe, yet full of character. The property acts like a mirror, shifting with the weather's mood, blending subtly into its surroundings.

Is it the perfect bachelor pad, just outside Delft? Or the ideal backdrop for your designer interior? This is a home for lovers of the good life, for those who take pride in their refined sense of aesthetics. This striking design has been awarded in multiple countries—including New York, where it won the prestigious Chicago Metallic Award.
